

**Eric and Sarah Wilson Presenting**

***The Dragon Revealed Down Under***

**If you don't think the martial arts are impacting your world then you are being beguiled by a subtle deception of Satan.**

Satan's influence in the world today is all-pervasive. However, it's very subtle. Satan's influence makes it's inroads gently and almost imperceptibly through planting a little bit of his poison with the good of holistic health practices, exercise techniques, relaxation therapy, the environmental movement, entertainment, music, the self help movement, corporate management theory and practice, etc. Satan then germinates and waters his seed and lets it grow. And how it grows!

The growth in the martial arts over the last 20 years is not accidental. It's also linked to all of the above. It's philosophy and language is now becoming mainstream. It brings the mysticism of eastern worship practices, the acceptability of the spirit world and the emergent church movement into the normality of our daily lives. Watch a child play and you will often see them imitating the movements and language of the martial arts. Check out children's and teenagers clothing and you will see a blatant 'Satan branding'. Check out much of adult fashion and exercise clothing and what do you find?

**The Dragon Revealed Down Under will give you great insights on how the evil angels are working now and how Satan is preparing us for his last great deception.**
